NOC Calendar 2006

The NOC Classic Calendar is back for 2006 and once again features 13 large colour photographs of Nortons. The cover shot features a Dominator on the sands in front of St. Michael's Mount, Cornwall and other pictures include an International special, a Navigator to keep the Lightweight fraternity happy and even a Norton sidecar outfit. In the usual A3 landscape format, the layout again includes both last month and next month. Andy Sochanik provides an updated history of Norton's Lightweight motorcycles in the calendar. (*As I have the Navi I reckon I'll have to get one - Ed*). **The Norton Owners Club 34, St. Clares Court, Lower Bullingham, Hereford, England HR2 6PY** Our American friends have to order theirs from the Bracebridge Street Depot ...

American interest

Our American Norton friends have to obtain their calendars from the Bracebridge Street Depot which leads to their web site copied below.

Lapel Pins

Apparel, etc.

Club Emblems

Norton Fun Stuff

Technical Help

Order Form

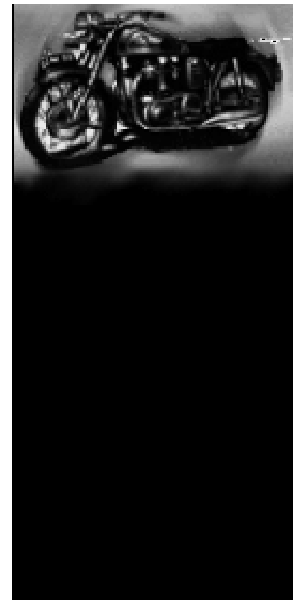

Contact Us

Welcome to
BRACEBRIDGE STREET DEPOT

the official regalia site for the
International Norton Owner's Association

an organization dedicated to the preservation and enjoyment of Norton motorcycles.

You do not need to be a member of the club to order from this website. Here you will find a variety of Norton and Club related items selected to appeal to any Norton enthusiast regardless of your level of involvement with the hobby. We add new items as they become available so be sure to check back often.

Branch Evening out to dinner

The Branch dinner held on the January Clubnight proved to be a popular affair. I didn't count numbers but certainly over 30 including several spouses and partners had a pleasant evening. Thanks to the Treasurer for making the evening comparatively painless (financially). Shall we repeat it next year?

Tailpiece

Norton Motors development of the 'new' Commando appears to be progressing well. In case you haven't seen it the photo (left) together with a number of detail views and technical specifications appear on their web site along with this write up:

'The Norton Commando 961 is the more traditional model of the great new sporting roadster with all of the performance and style of the Signature Series and 961S models but with a dual seat and wire wheels.'
